

FUSION FIGHTERS
ONLINE WORKSHOP OPTIONS:

1, The Fusion Fighters Performance Workshop: This workshop focuses on going through the basics of the different vocabulary we include in our unique style (Performance Irish, Body Percussion, Freestyle etc) and how we combine them together. We also teach some improvisation techniques & choreography. It's very inclusive to most levels & focuses on being a fun easy going experience. (Typically we get asked to do 2 x 2 hour sessions for these).

2, Full Piece of Fusion Fighters Choreography: This workshop focuses on getting through an entire piece of choreography that your performance troupe could then use for future displays. For this one we also send out videos in advance of the sessions, so dancers can have a head-start in learning the choreography. You can pick an intermediate or advanced routine or something that combines both. We can also provide music that you can then use for the routine if performing or filming it in the future. (Typically we get asked to do 2 x 2 hour sessions for these).

3, Choreography & Video Project: This workshop still teaches the full Fusion Fighters Choreographed piece, plus we provide detailed instructions on how to film the choreography yourselves. After you upload your files we will edit a video for you, post and distribute the video on all our pages and to other media connections. We usually do 3 x 2 hour sessions for these workshops. The third session helps us make sure the choreography is polished off and ready to film, we can also start explaining the filming process in more detail.

For video examples please check our website.
